### WINEMAKING:

The grapes were selected and harvested by hand, afterwards kept in a cold room overnight, cooling the grapes down to 5°C. At processing, the destemmed grapes were partially crushed and left under cold maceration to extract color and flavors before fermentation for 4 days. The wine was fermented with indigenous yeast species for 16 days with regular manual punch downs to extract even more color, flavor, and tannins. Malolactic fermentation was completed in barrels followed by maturation for 18 months in 2nd fill and 3rd fill French, American and Hungarian oak barriques.

### RANGE DESCRIPTION:

The wines under the surname "Terroir Selection" are single varietal Chenin Blanc / Chenel and Pinotage, whose grapes are mainly from the flatter front plots of our farm, and whose taste tends to be fruity, fresh and delicately nuanced.
